

Come Together Everybody

Verse 1

If all people come together

Sharing hope and love

They can build a brighter future

Where everyone plays a part

As we share what we know

Together we'll grow

And we'll do greater things,

'cos we're not alone

Chorus:

Come together everybody

As friends and family

We are connected, not divided,

There's strength in our diversity

Verse 2

When all people come together

Sharing hope and love

We will build a brighter future

Where everyone plays a part

As we share what we know

Together we'll grow

And we'll do greater things,

'cos we're not alone

Chorus:

Come together everybody

As friends and family

We are connected, not divided,

There's strength in our diversity (repeat)

...There's strength, support and power and love

And hope in our diversity

We are family
